

To: All MAS/MATT Nurses/Providers

From: Vanessa Prater, Director
Nurse Delegation Program DMH/MR

Re: Annual MAC Training Update

As most of you are aware, one year has passed since full implementation of the ADMH/MR Nurse Delegation Program. Dr. Richard Powers and his staff put together a multi tiered educational program that will eventually operate on line and via teaching DVDs. Until the on-line training program is available, the annual four hour MAC training must address the following topics:

- Rights and responsibilities of the MAC worker
- Target population medications and illnesses
- Medication errors – documentation and reporting
- Documentation on the MAR
- Quarterly monitoring
- Special procedures – glucometer, nebulizer, colostomy changes, etc.
- Agency specific issues related to the Nurse Delegation Program

All of these topics are covered in the present training materials. Please utilize the MAC Educational Log, noting “Annual Update” on the form to document this training. Attach a copy of the training outline to the MAC Educational Log and maintain as documentation of this training.

Thank you for your continued compliance with the Nurse Practice Act and Nurse Delegation Program. If you have any questions or concerns, please contact me at (334) 242-3217 or send your question(s) via email to Vanessa.Prater@mh.alabama.gov.
